What does that mean: "Counts for SLC if announced on [www.swiss-league.ch](http://www.swiss-league.ch)" ?

Case 1)  
 The SC takes place and the Swiss League participates. This will be announced on [www.swiss-league.ch](http://www.swiss-league.ch)

Case 2)  
 The Organiser announces the Swiss Cup, but the weather is not really good.  
 In this case we will announce on [www.swiss-league.ch](http://www.swiss-league.ch), that the swiss cup takes place, but does not count for the SLC Ranking.

Case 3)  
 The Organiser cancels the Swiss Cup, but the weather seems to be good in a different part of Switzerland.  
 In this case we can announce a Swiss League Cup in a different part of Switzerland.
