Report Back Procedure

When you land, your live tracker will detect your landing and, a few minutes later, will emit a siren sound and display a menu:
- Retrieve Needed (no „classic“ retrieve available, you will get informations by SMS from Chris)
- Retrieve Not Needed (normal option to use, you use public transport)
- Require Assistance (only choose, if you are injured; this option will be treated as a call to the emergency services).

After a delay, you will receive an acknowledgement on your live tracker; until this acknowledgement is received, you cannot consider yourself reported back.
If you move, or your status changes, or you choose an incorrect option, simply report back again to give the organisation the most up to date information.
If you cannot obtain an acknowledgement, you can report back by SMS. Simply send a message containing your pilot number and your UTM X and Y coordinates to the SMS Check-in number. The SMS can contain other supplementary information.
After a delay, you will receive an acknowledgement SMS; until this acknowledgement is received, you cannot consider yourself reported back.
If all else fails, you will need to report back using the Retrieve voice phone.
