Technical

Registration-SMS

For registration **once only** "para start ogo" to 079 381 60 10.

> Just once, we assume that everyone starts every day

> Report back **every day** (SMS „para stop“ to 079 381 60 10)

Emergency numbers

- +41 77 478 39 02 > forwarded to Dani
- 1414 oder 114 (in case of serious accidents, call Rega directly, Rega is informed about task and life tracking)

Info on Waypoint Map, and in chat (description)

REGA-App

- Download the REGA-App (Swiss phone numbers only).

- Download for [other phone Numbers](https://apktada.com/app/ch.rega.Reg) (<https://apktada.com/app/ch.rega.Reg>)

Serious accident

- **Call the REGA directly**

"Normal" accidents:

- Call the safety number. We will act accordingly and call the REGA if you are safe.

Tree landings and rescue:

- Call us! We have professional tree operators and we will inform the REGA about the incident.

Radio frequency (PMR)

7-38

To enter manually:

446.08125 / 250.3 rt-cdc

2-m-Band 157400, NO 2-M BAND, all use PMR

Task App

- Main URL: <https://www.swissleague.ch/task>
- Widget Task-Status: <https://www.swissleague.ch/task?widget=status>
- Single Level-Button: <https://www.swissleague.ch/task?widget=level1>
- Level-Button combined: <https://www.swissleague.ch/task?widget=level23>

Registration required and only possible with the main URL.

Radio: Pilots must repeat messages to ensure, that all pilots get the messages

Feedback

Very important: Give Feedback. On provisional Tasks, on Briefing and - most important - in Air!

Level System

Level 1 = good flying, good conditions.

Level 2 = at the limit, but still ok.

Level 3 = you should stop the task

Attention: Switch on tracker

Press left, then press right.

Switching off the tracker does not work (they are in competition mode).

Where are the trackers handed out? At HQ

Pilots should remember the number for quick delivery. A list will be published in the chat.

Task setting Committee

(voted)

Michi Rohner (local)

Sven Albert (local)

Stephan Schöpe, D

Martin

Stephan Schöpe has the competence to stop a task together with Dani or me

Davide has the power to stop tasks

GAP Factors and Formula

60 km, 1:30, 30%, 7 km, 95%

Formula: **PWC 2023**

FTV 25%

Landing site

- Wind conditions: Valley wind, normal is 15 kmh
- Cables? Yes, but normally no problem

In general, in the event of an off-field landing:

- Immediately leave meadows and fold your glider on roads or tracks
- Fold Glider (if not it looks like an accident)

Cables !!!

Obstacles Switzerland

2 nasty one, and some cable cars

Airspace

1 Pt / m Penalty / GPS altitude

- max altitude 3950 or less in case of Drohne-Zone (but the Airspace file is valid)

Waypoint-list (wpt-file):

- Waypoints on website
- Airspace file on website.
- Tomorrow:
XCTrack:
COMP CH Layer for tomorrow is active.
File:
2024_OGO_Min_Sat-v1.txt

Area

- Wind systems
